

Emerald Snow[®]

LOROPETALUM

Loropetalum 'Shang-white' PP21738

Loropetalums have a naturally elegant, layered habit that works beautifully in any landscape or container garden. By selecting a dwarf variety like Emerald Snow, you can give your shears a rest, and never worry about pruning again.

EXPOSURE	USDA ZONES	SUNSET ZONES	DIMENSIONS
Part sun to shade	Hardy to 0°F, zones 7-10	4-5 (with protection) 6-9,14-24	2-3 ft Height x 3-4 ft Width
